PROFESSIONAL SUMMARY

Detail-oriented aspiring Data Analyst with hands-on experience in data cleaning, exploratory data analysis, dashboard development, and business reporting. Proficient in SQL, Python, Excel, Power BI, and data visualization. Experienced in transforming raw datasets into actionable insights through data analysis, KPI tracking, reporting, and interactive dashboards. Strong understanding of statistics, data manipulation, and business problem-solving.

TECHNICAL SKILLS

Languages: Python, SQL

Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Data Manipulation, Statistical Analysis

Visualization: Power BI, Matplotlib, Seaborn, Excel Dashboards, Data Visualization, KPI Reporting

Excel: Pivot Tables, XLOOKUP, INDEX-MATCH, SUMIFS, COUNTIFS, Conditional Formatting, Charts, Data Cleaning

SQL: Joins, Subqueries, CTEs, Window Functions, CASE Statements, Aggregate Functions, GROUP BY, HAVING, Data Filtering

Tools: Jupyter Notebook, Microsoft Excel, Power BI, GitHub

PROJECTS

McDonald's Sales Analysis *Python — Pandas — NumPy — Matplotlib — Seaborn*

- Cleaned and transformed raw retail sales data using Python and Pandas, handling missing values, duplicates, inconsistent data types, and irrelevant columns.
- Performed exploratory data analysis to identify customer purchasing patterns across gender, age group, occupation, marital status, state, and product categories.
- Identified high-value customer segments and top-performing product categories to generate actionable insights for improving sales and customer targeting.
- Built visualizations using Matplotlib and Seaborn to communicate sales trends, customer demographics, and product performance.

JSON Bike Analysis *SQL — MySQL*

- Built an interactive Power BI dashboard to monitor revenue, profit, sales quantity, average order value, and category-level performance.
- Cleaned and transformed raw transactional data using Power Query and created calculated measures for key business performance indicators.
- Designed interactive filters and drill-down views to analyze sales performance across regions, categories, products, and time periods.
- Identified top-performing categories and underperforming segments to support data-driven business decisions.

ITC Hotels Revenue Optimization Dashboard *Power BI — Excel*

- Analyzed customer and transaction datasets using SQL to identify revenue trends, repeat customers, product performance, and purchase behavior.
- Used INNER JOIN, LEFT JOIN, GROUP BY, CASE statements, CTEs, subqueries, and aggregate functions to answer business questions.
- Applied window functions including RANK, DENSE_RANK, and ROW_NUMBER to identify top customers and products by category.
- Generated business insights from customer segmentation, monthly revenue trends, and product-level performance analysis.

INTERNSHIP EXPERIENCE

Business Analyst Intern | WSCube Tech

- Analyzed business data using Excel and SQL to support monthly reporting and performance tracking.
- Created and maintained Power BI dashboards to monitor key business metrics and present insights to stakeholders.
- Automated repetitive data cleaning and reporting activities, improving the efficiency and consistency of monthly reporting workflows.
- Worked with structured business datasets to identify trends, discrepancies, and insights for decision-making.

EDUCATION

M.Sc. Botany | University of Rajasthan, Jaipur | 2021 – 2023

B.Sc. Botany | University of Rajasthan, Jaipur | 2018 – 2021

CERTIFICATIONS

- Data Analytics — WSCube Tech
- Data Analytics — Udemy (Mohammad Yousef)
